Ayoroa Simmons
620 Euclid Ave Suite 300
Lexington, KY, United States, 40502

Dear Hiring Manager,

I am writing to express my interest in the Architectural Technician position at Ayoroa Simmons. With a degree in architecture, professional experience developing Revit-based BIM models and construction documentation, I am excited about the opportunity to contribute to your remote, interdisciplinary team and support your data-driven approach to the built environment.

My background includes producing accurate architectural drawings and coordinated BIM models across multiple project phases, from schematic design through construction documents. I have extensive hands-on experience in Autodesk Revit and a strong understanding of building systems, construction detailing, and documentation standards. I am particularly drawn to Ayoroa Simmons' focus on precision and accountability, values that I also prioritize in my own work to ensure high-quality, compliant deliverables.

I have experience coordinating architectural elements with structural and MEP disciplines, performing quality control reviews, and supporting code analysis in accordance with the International Building Code. Additionally, I am familiar with collaborative digital workflows and remote coordination tools, allowing me to work efficiently and independently while maintaining clear communication with project teams.

Your firm's emphasis on advanced technologies such as scan-to-BIM and 3D laser scanning strongly aligns with my interest in leveraging data-rich models to improve accuracy and project outcomes. I am eager to further develop my experience working with point cloud data and contribute to innovative workflows that enhance coordination across the project lifecycle.

I would welcome the opportunity to bring my technical skills, attention to detail, and collaborative mindset to Ayoroa Simmons. Thank you for your time and consideration. I look forward to the possibility of discussing how my background aligns with your team's needs.

Sincerely,

Meaghan Fitzgerald
